

1. Introduction to “Apply To” Attribute Option for Magento 2.0

The new “Apply To” Attribute Option extension offers a cool feature to control and manage product attributes in your store. Now you have an opportunity to assign product attributes only to specific types of products, so that the assigned attributes will be available only in the settings of the specified types of products in your admin panel. This considerably reduces the amount of unnecessary fields which you have to scroll through in the product preferences when needing to find the required attribute.

Key features:

- Improve Magento admin panel experience with advanced attribute management feature;
- Reduces the amount of unnecessary fields on the product page in the admin panel;
- Simple to install and use, no extra configurations required.

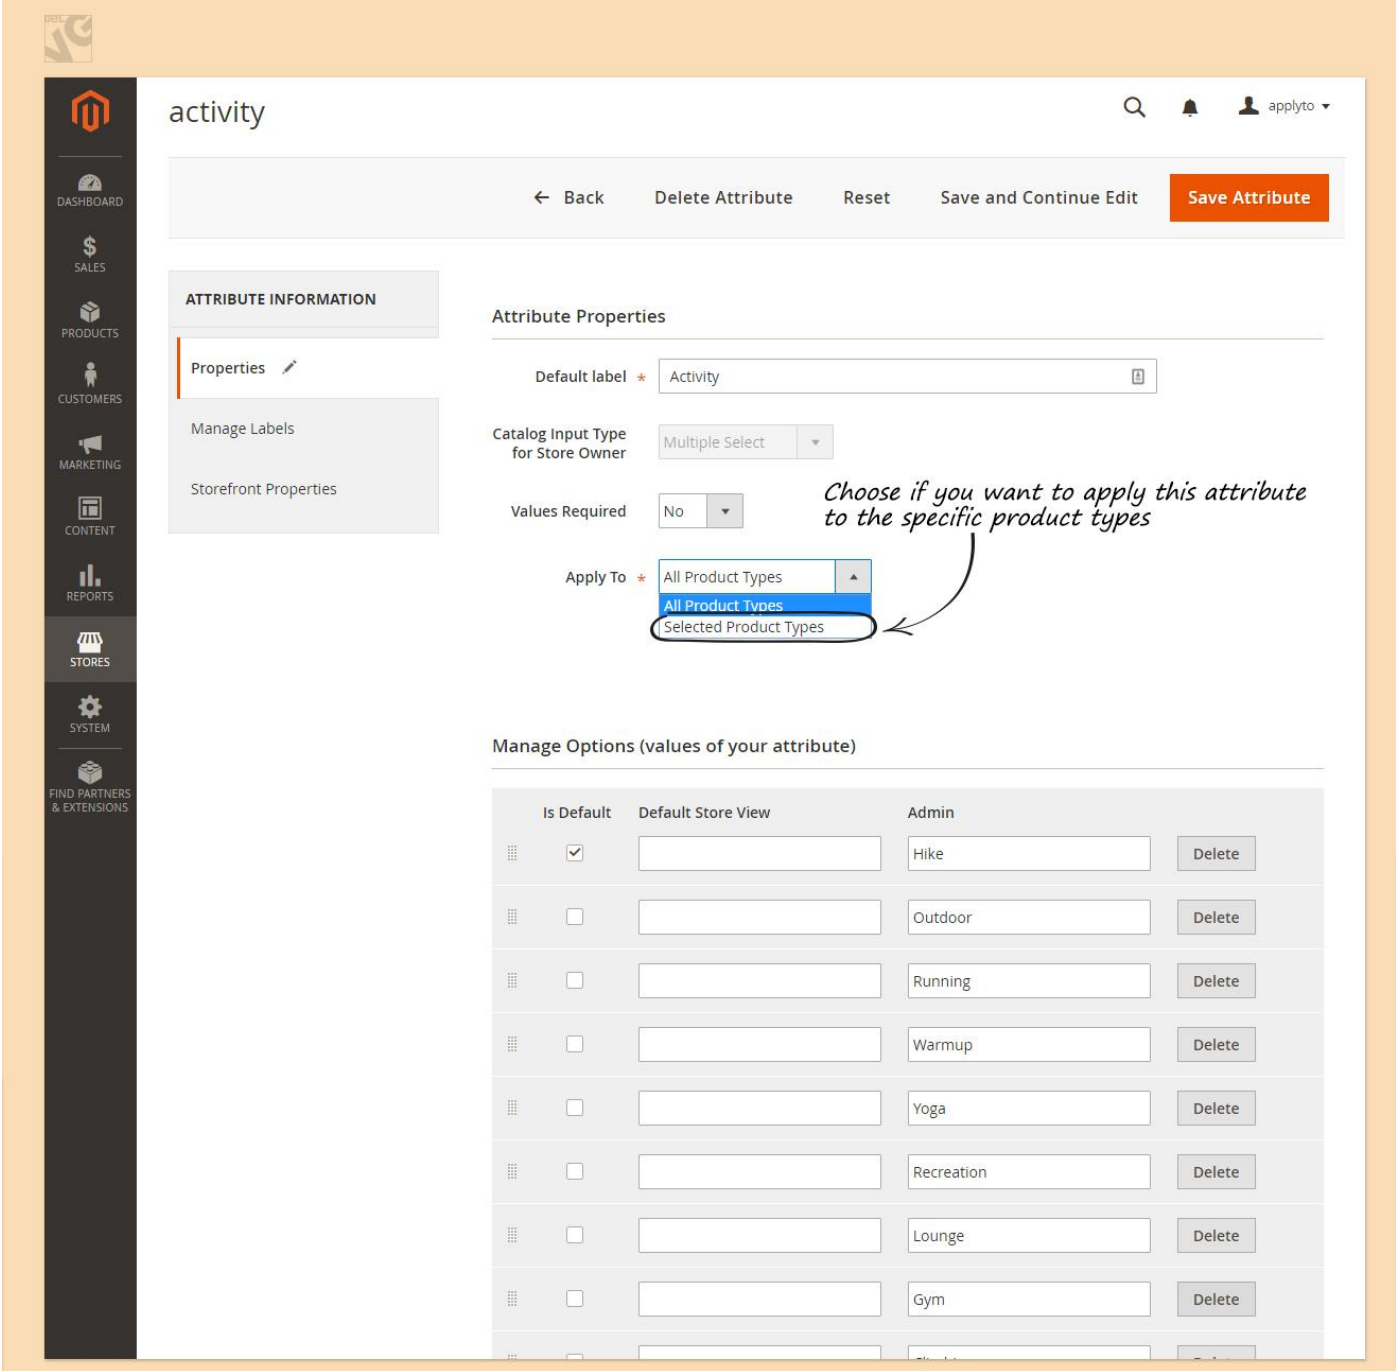

2. How to Configure and Use

Once the **Apply To** module is installed it immediately starts working on your Magento admin panel and does not require any extra configurations.

Let's see how the module works.

Log into your Magento admin panel and go to **Stores - Attributes- Product**.

Click the required attribute in the list to enter the edit mode, for instance, the Activity attribute.

The screenshot shows the 'activity' attribute configuration page in the Magento Admin Panel. The left sidebar contains navigation menus for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'activity' and includes a top navigation bar with 'Back', 'Delete Attribute', 'Reset', 'Save and Continue Edit', and a 'Save Attribute' button. Below this is the 'ATTRIBUTE INFORMATION' section with a sub-section for 'Properties'. The 'Attribute Properties' section contains the following fields:

- Default label *: Activity
- Catalog Input Type for Store Owner: Multiple Select
- Values Required: No
- Apply To *: A dropdown menu with options 'All Product Types' (selected), 'All Product Types', and 'Selected Product Types'. A callout arrow points to this dropdown with the text: "Choose if you want to apply this attribute to the specific product types".

Below the properties is the 'Manage Options (values of your attribute)' section, which contains a table with the following data:

Is Default	Default Store View	Admin	
<input checked="" type="checkbox"/>		Hike	Delete
<input type="checkbox"/>		Outdoor	Delete
<input type="checkbox"/>		Running	Delete
<input type="checkbox"/>		Warmup	Delete
<input type="checkbox"/>		Yoga	Delete
<input type="checkbox"/>		Recreation	Delete
<input type="checkbox"/>		Lounge	Delete
<input type="checkbox"/>		Gym	Delete
<input type="checkbox"/>			Delete

In the attribute properties find the **Apply To** menu and choose **Selected Product Types** - you will see the list with the available types of products appear below.

The screenshot shows the 'activity' attribute configuration page in the Magento 2 Admin. The 'Apply To' dropdown is set to 'Selected Product Types', and a list of product types is shown below it. A handwritten note points to the list with the text: "Select one or several product types for which you would like to show this attribute". Below the list is a 'Manage Options' table with columns for 'Is Default', 'Default Store View', and 'Admin'.

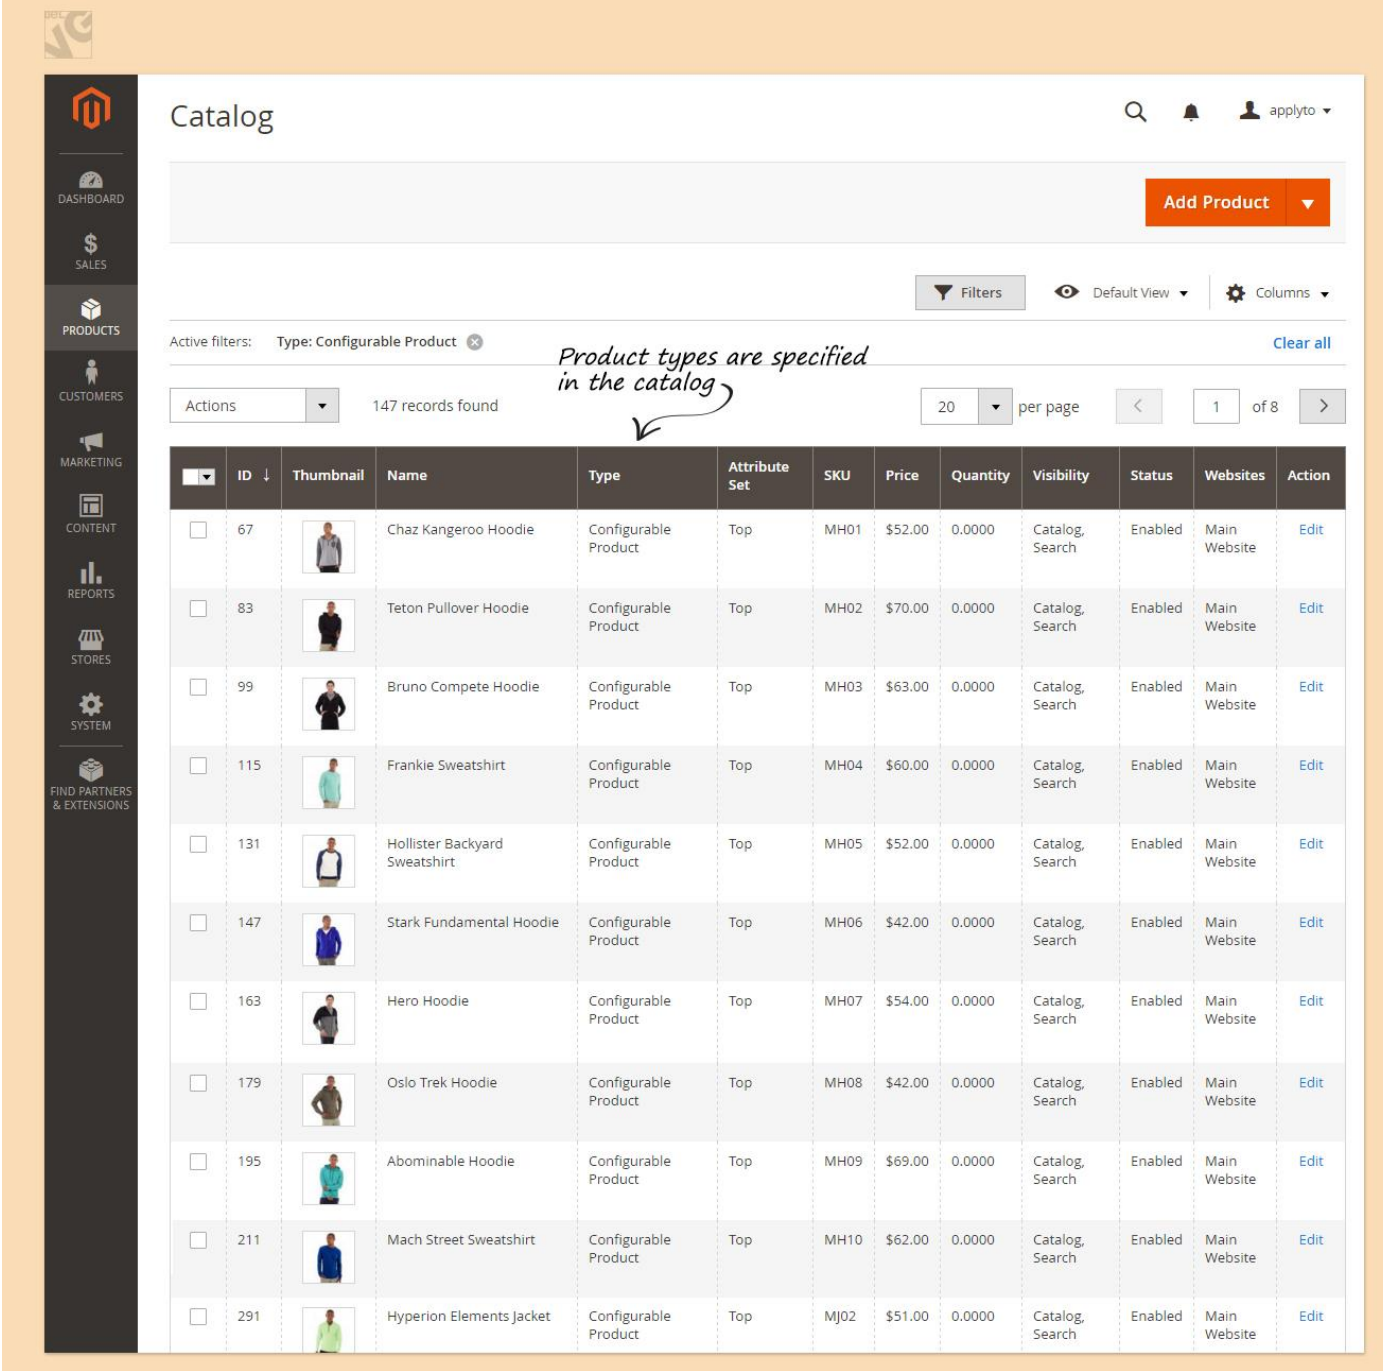

Is Default	Default Store View	Admin	
<input checked="" type="checkbox"/>		Hike	Delete
<input type="checkbox"/>		Outdoor	Delete
<input type="checkbox"/>		Running	Delete
<input type="checkbox"/>		Warmup	Delete
<input type="checkbox"/>		Yoga	Delete

Just select the necessary types of products and your attribute will be available only for these types in their product settings. For instance, we will select the following types:

- *Downloadable product;*
- *Grouped Product;*
- *Configurable product.*

Click Save to apply the changes.

Now our **Activities** attribute has become available only for the 3 selected product types. To check that, you may go to the **Products - Catalog** section.

The screenshot shows the 'Catalog' page in the BELVG system. The left sidebar contains navigation options: DASHBOARD, SALES, PRODUCTS (highlighted), CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area displays a table of products with the following columns: ID, Thumbnail, Name, Type, Attribute Set, SKU, Price, Quantity, Visibility, Status, Websites, and Action. The table is filtered to show only 'Configurable Product' types. A handwritten note with an arrow points to the 'Type' column, stating 'Product types are specified in the catalog'. The table contains 10 rows of product data.

ID	Thumbnail	Name	Type	Attribute Set	SKU	Price	Quantity	Visibility	Status	Websites	Action
67		Chaz Kangaroo Hoodie	Configurable Product	Top	MH01	\$52.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
83		Teton Pullover Hoodie	Configurable Product	Top	MH02	\$70.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
99		Bruno Compete Hoodie	Configurable Product	Top	MH03	\$63.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
115		Frankie Sweatshirt	Configurable Product	Top	MH04	\$60.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
131		Hollister Backyard Sweatshirt	Configurable Product	Top	MH05	\$52.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
147		Stark Fundamental Hoodie	Configurable Product	Top	MH06	\$42.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
163		Hero Hoodie	Configurable Product	Top	MH07	\$54.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
179		Oslo Trek Hoodie	Configurable Product	Top	MH08	\$42.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
195		Abominable Hoodie	Configurable Product	Top	MH09	\$69.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
211		Mach Street Sweatshirt	Configurable Product	Top	MH10	\$62.00	0.0000	Catalog, Search	Enabled	Main Website	Edit
291		Hyperion Elements Jacket	Configurable Product	Top	MJ02	\$51.00	0.0000	Catalog, Search	Enabled	Main Website	Edit

And then enter the settings of any of the 3 types of products (Downloadable, Grouped or Configurable) and you will see the **Activity** attribute listed there.
