1. Introduction to Facebook All in One

Magento Facebook All in One is an extension to boost your Magento store with all Facebook force and power. Help your customers avoid boring registration process and let them log into your store with their Facebook accounts. Users will be able to like your products and share page blocks, populate their social news feed with the information about the products they like and want to buy, this way helping you to promote your products among greater audience. Be on top of of traditional marketing strategies and encourage your viewers to leave comments, like your pages and share their purchases with friends.

Key features:

- Facebook Login;
- Every product is supplied with Like and Share button;
- Comments available on the product page;
- Ability to share successfully completed orders;
- Recent activities block;
- Customers are able to share their wishlist;
- Likes/comments amount statistics are available for you in the admin panel.

Overall information

Facebook Login allows your customers to log in to the system safely, using their Facebook accounts. The **Facebook Like** strengthens the impact and increases the traffic of your store. The more likes you have, the more customers you get.

Facebook-based **Comments** reflect the interest of your clients and give reasons to purchase to those who are uncertain.

With **Facebook Share** feature your customers can share successfully completed orders and wishlists with their Facebook friends.

Recent Activity block illustrates all Facebook-related activities: Posts, Likes and Shares.

Admin has a nice ability to see which products are the most liked and shared in the store.

2. How to Install and Deactivate

Step 1. Check Permissions.

Make sure the "app", "skin", "media" and "js" directories of your Magento and all directories inside them have full written permissions or set permissions on each directory equal to 777 or 0777.

Set permissions for [magento_root]/media/animated slider folder as 755.

Important! Change all permissions back after installation.

Read more about permissions [here](#).

Step 2. Disable Cache.

Log into MagentoAdmin Panel and go to **System** → **Cache Management** and disable cache.

Read more about Cache Management [here](#).

Step 3. Disable Compilation.

Log into MagentoAdmin Panel and go to **System** → **Tools** → **Compilation** and disable the compilation.

Step4. Upload files

Upload all files and folders from folder to the installation directory of your Magento software using an FTP client.

Step 5. Re-login.

Log out and back into MagentoAdmin Panel.

Step 6. Enable extension.

a) Go to **System** → **Configuration**. In the left column you will see the new tab – **Belvg Extensions**.

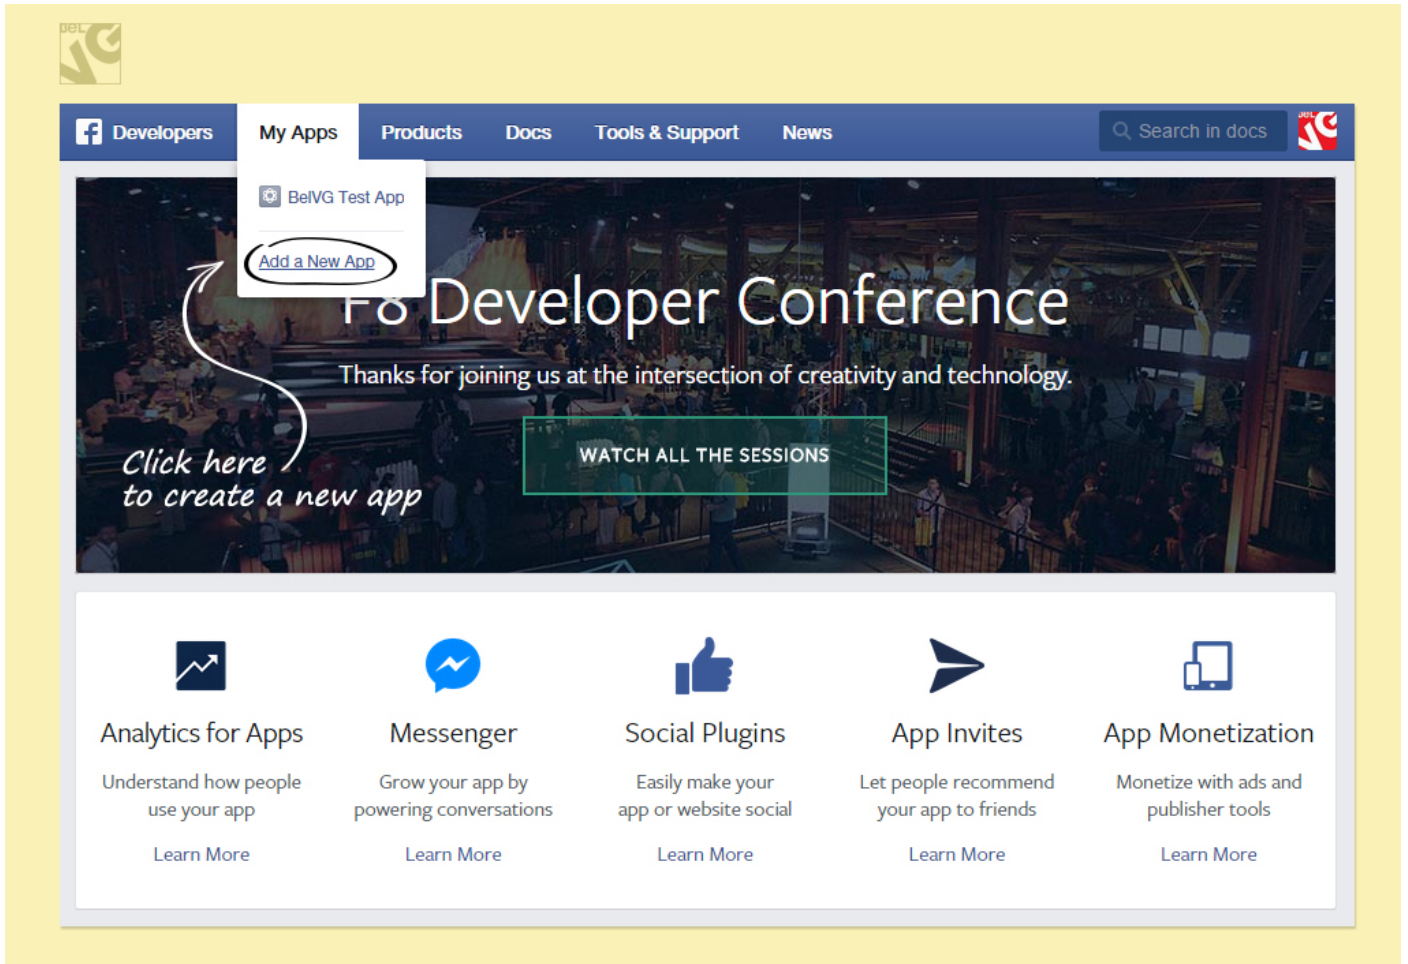

b) Enable extension for the whole website or selected store.

Now extension is installed and enabled.

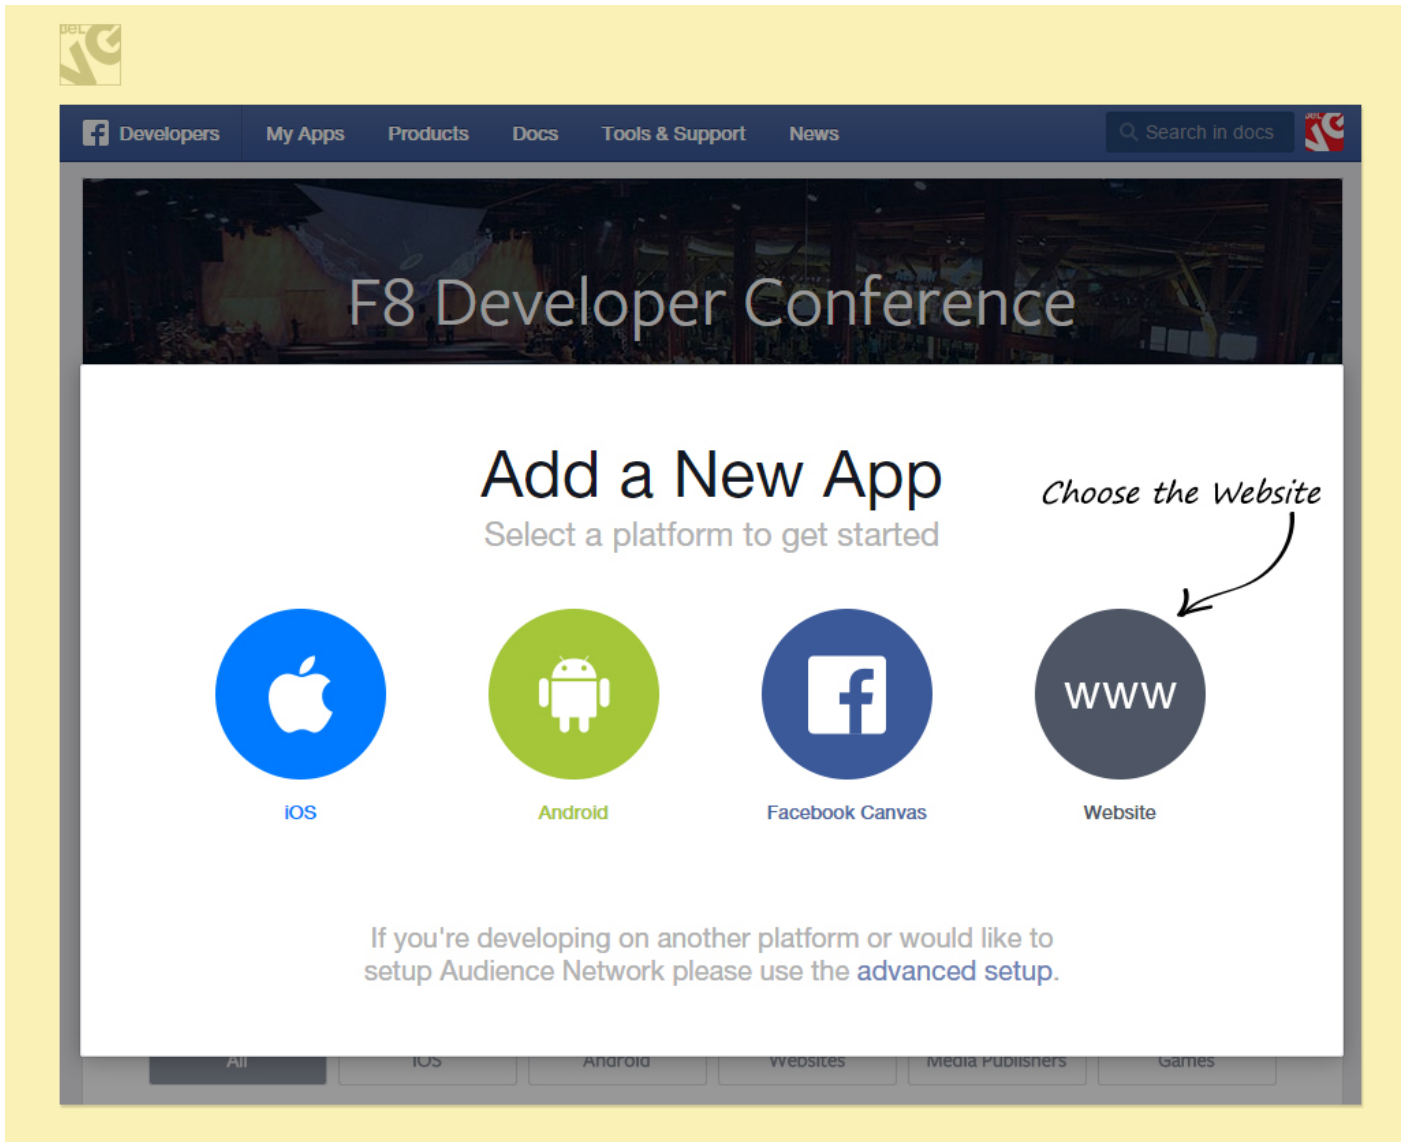

After this step you can change all permissions, cache and compilation settings back.

3. How to Create Facebook App

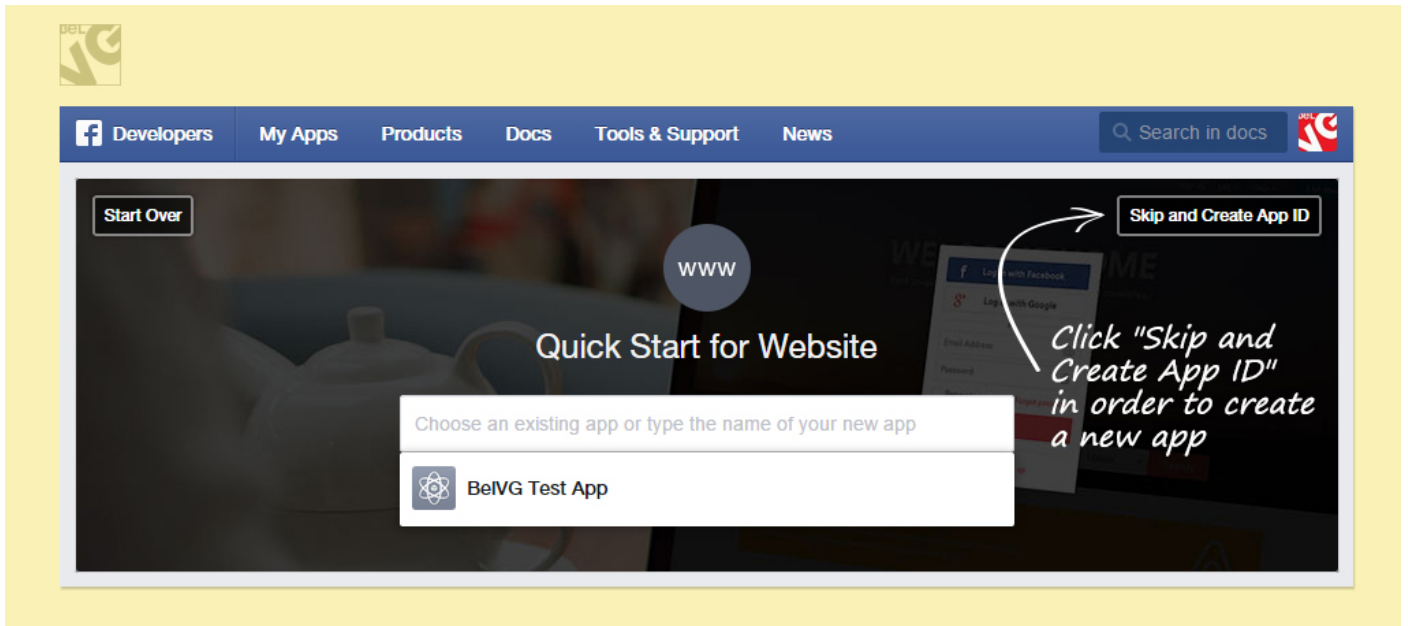

To create a Facebook app you need to go to the <http://developers.facebook.com/> and choose **Apps – Create a New App**.

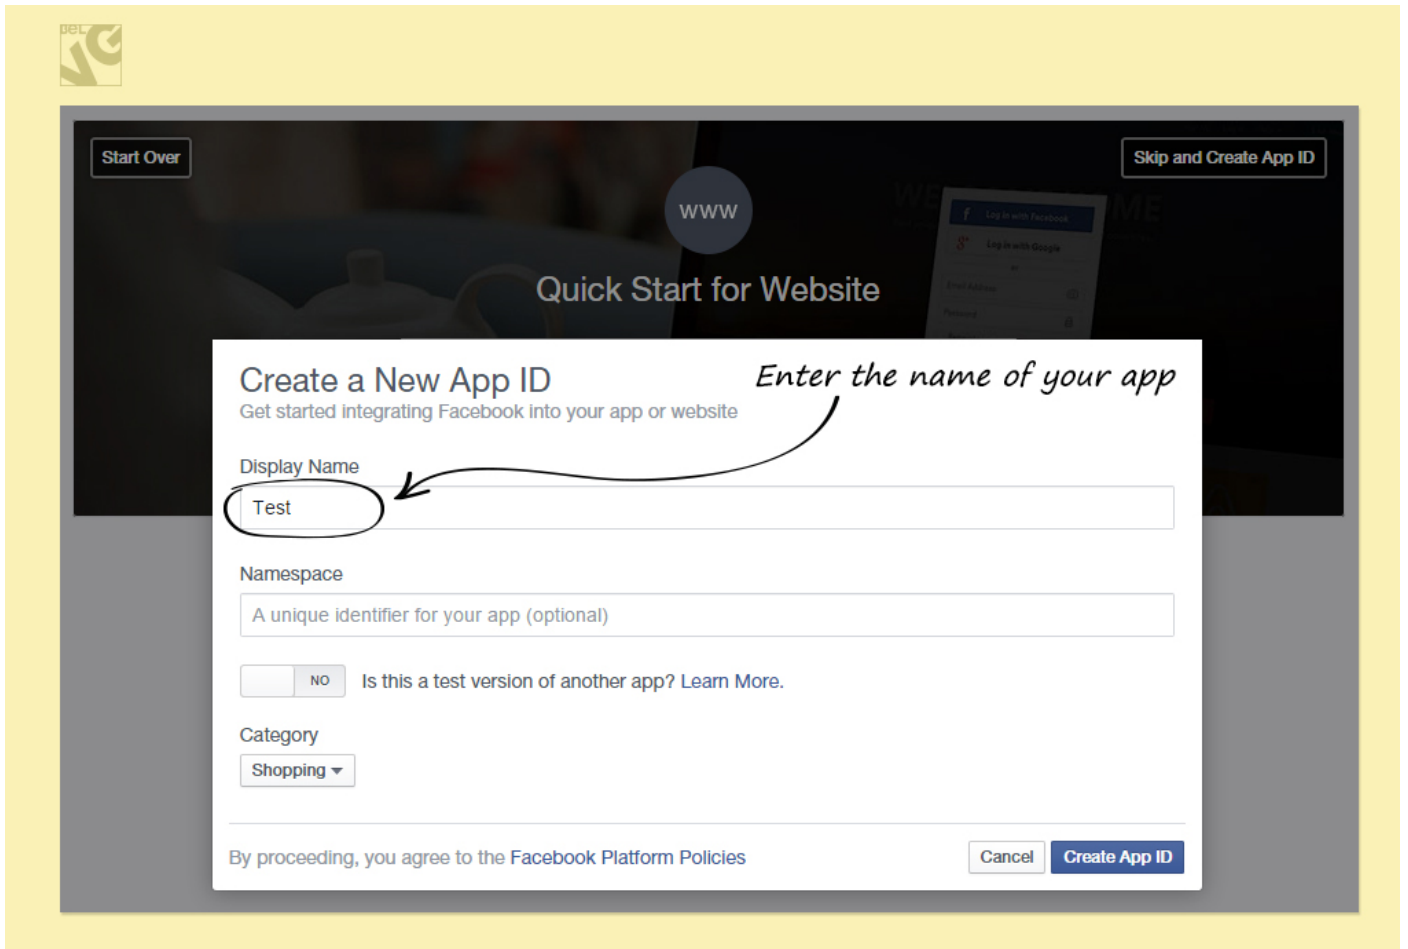

Choose the Website in the popup.

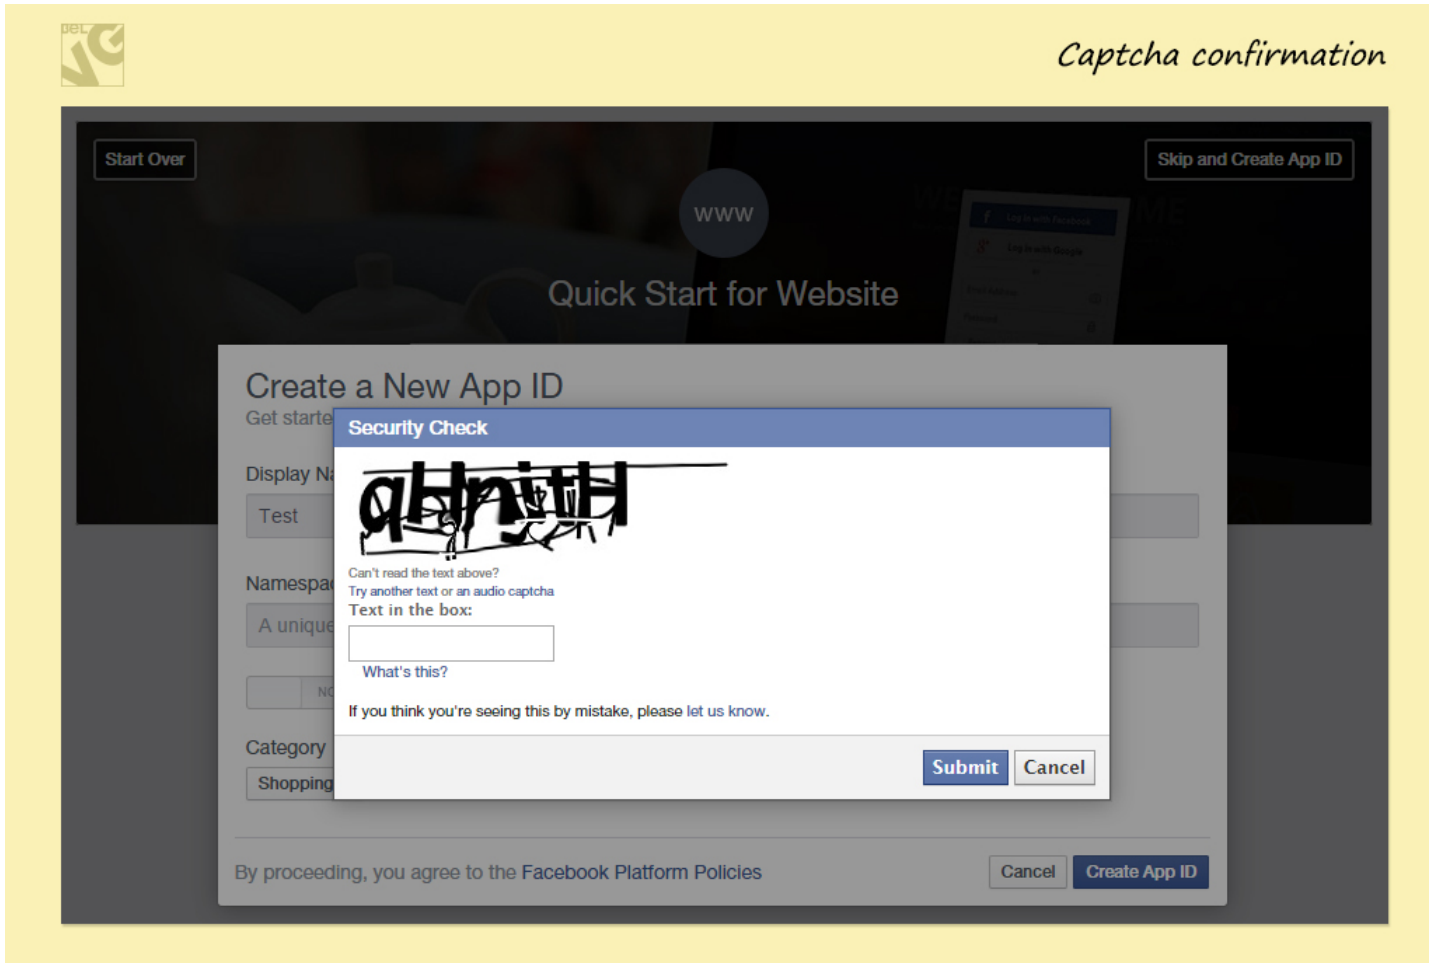

Click "Skip and Create App ID" in order to create a new app.

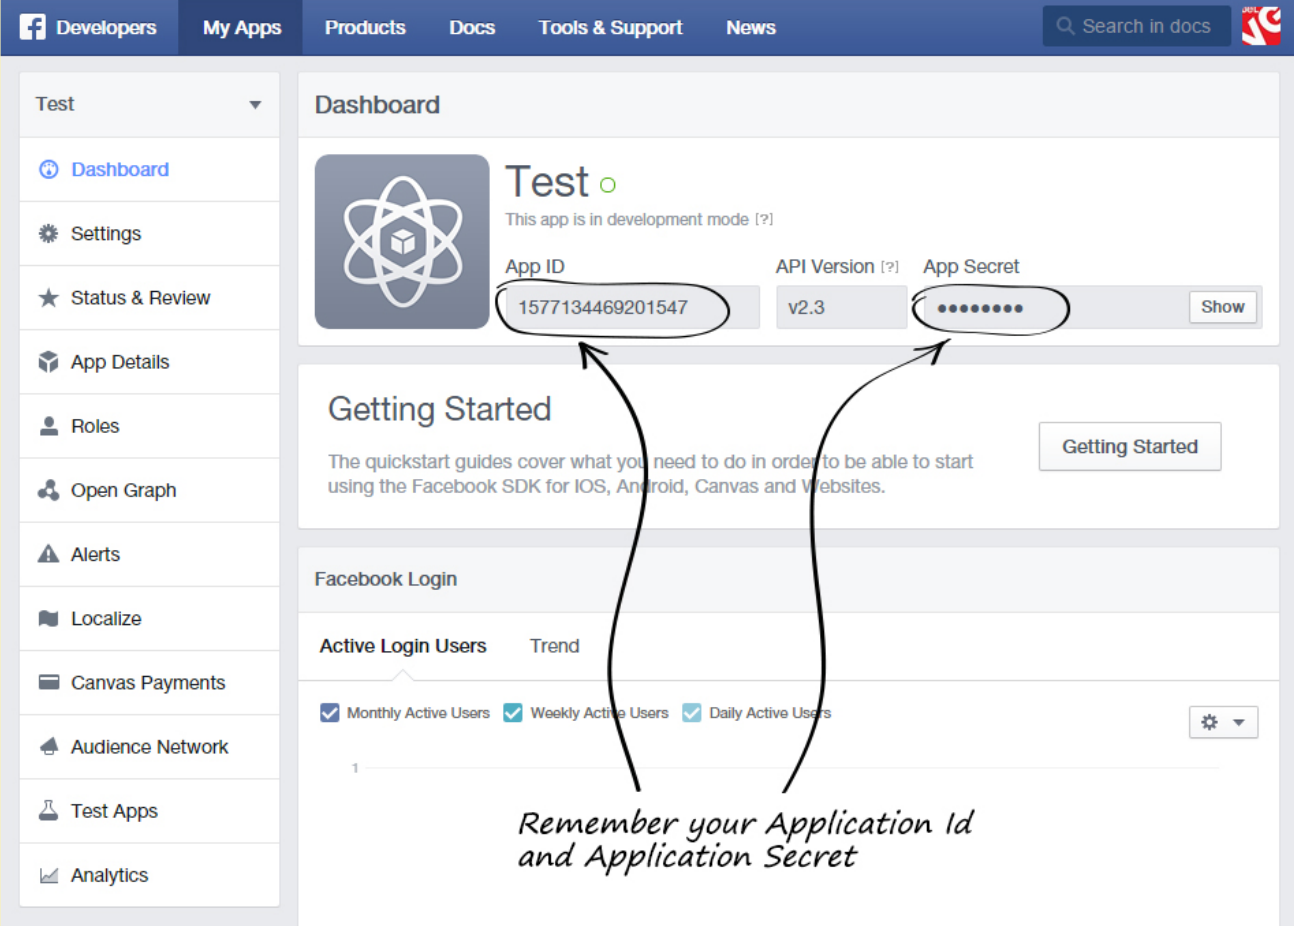

Name your app and push the **Create App** button.

The next step is the Captcha confirmation.

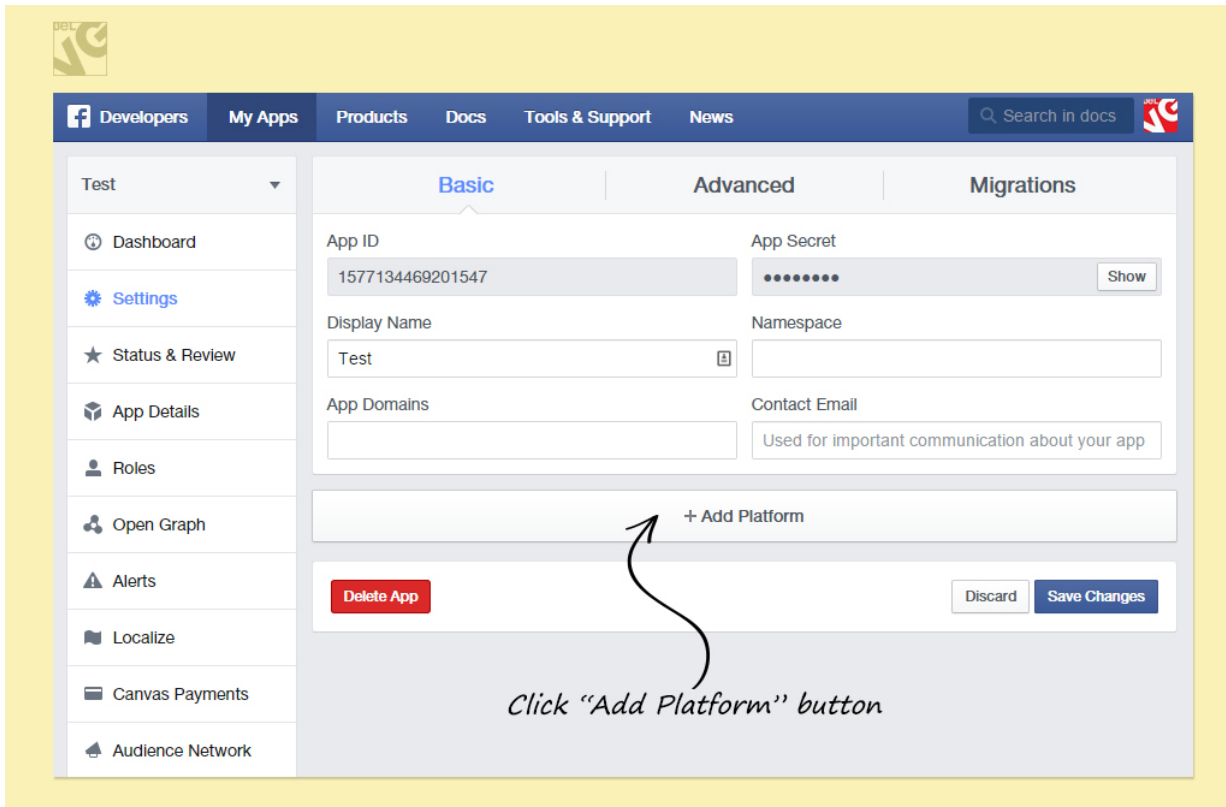

Remember the following **App ID** and **App Secret** to enter them in corresponding fields on extension settings page.

The screenshot shows the Facebook Developers dashboard for an application named "Test". The dashboard includes a sidebar with navigation options like "Dashboard", "Settings", "Status & Review", "App Details", "Roles", "Open Graph", "Alerts", "Localize", "Canvas Payments", "Audience Network", "Test Apps", and "Analytics". The main content area displays the app's details, including the App ID (1577134469201547), API Version (v2.3), and App Secret (represented by dots). A "Show" button is next to the App Secret field. Below the app details, there are sections for "Getting Started" and "Facebook Login". The "Active Login Users" section shows a trend for Monthly Active Users, Weekly Active Users, and Daily Active Users.

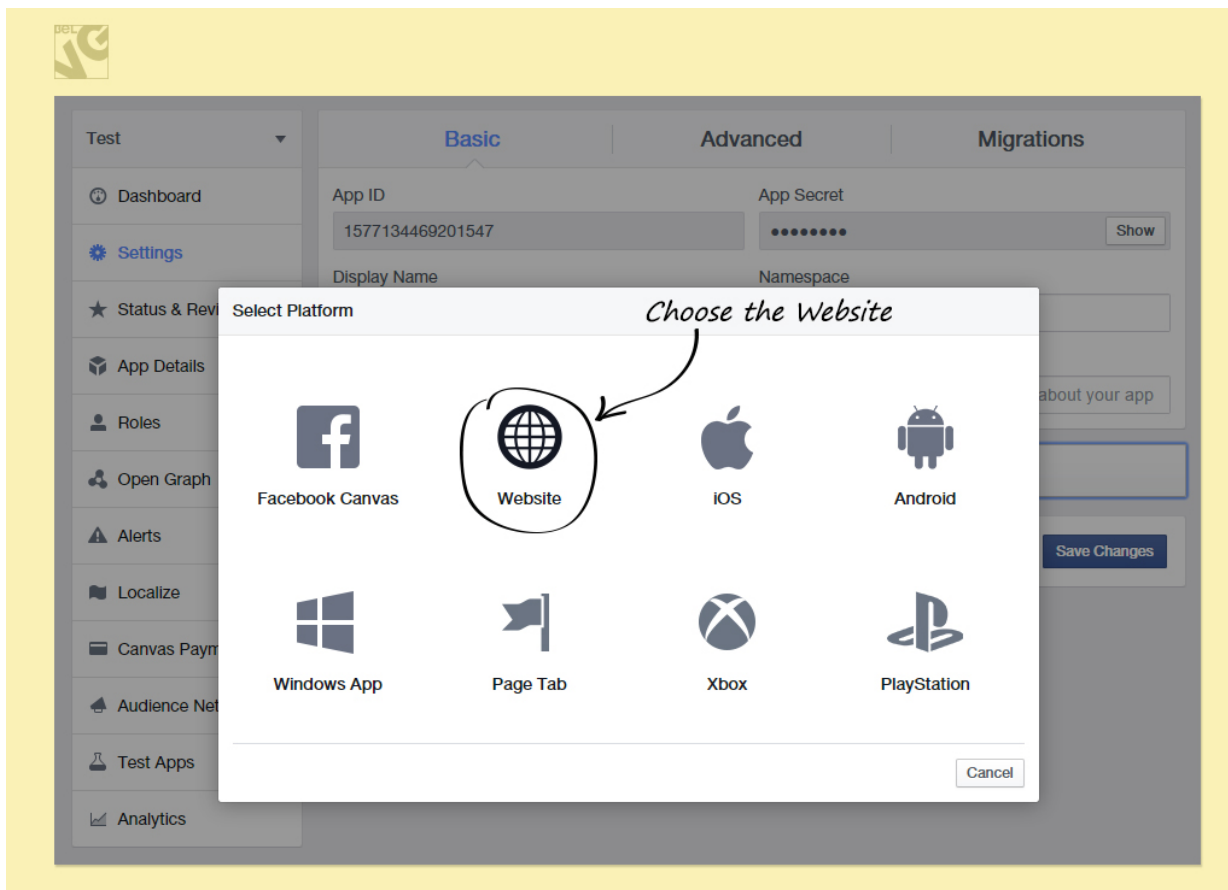

Remember your Application Id and Application Secret

Then go to the **Settings Tab** and click **Add Platform** button.

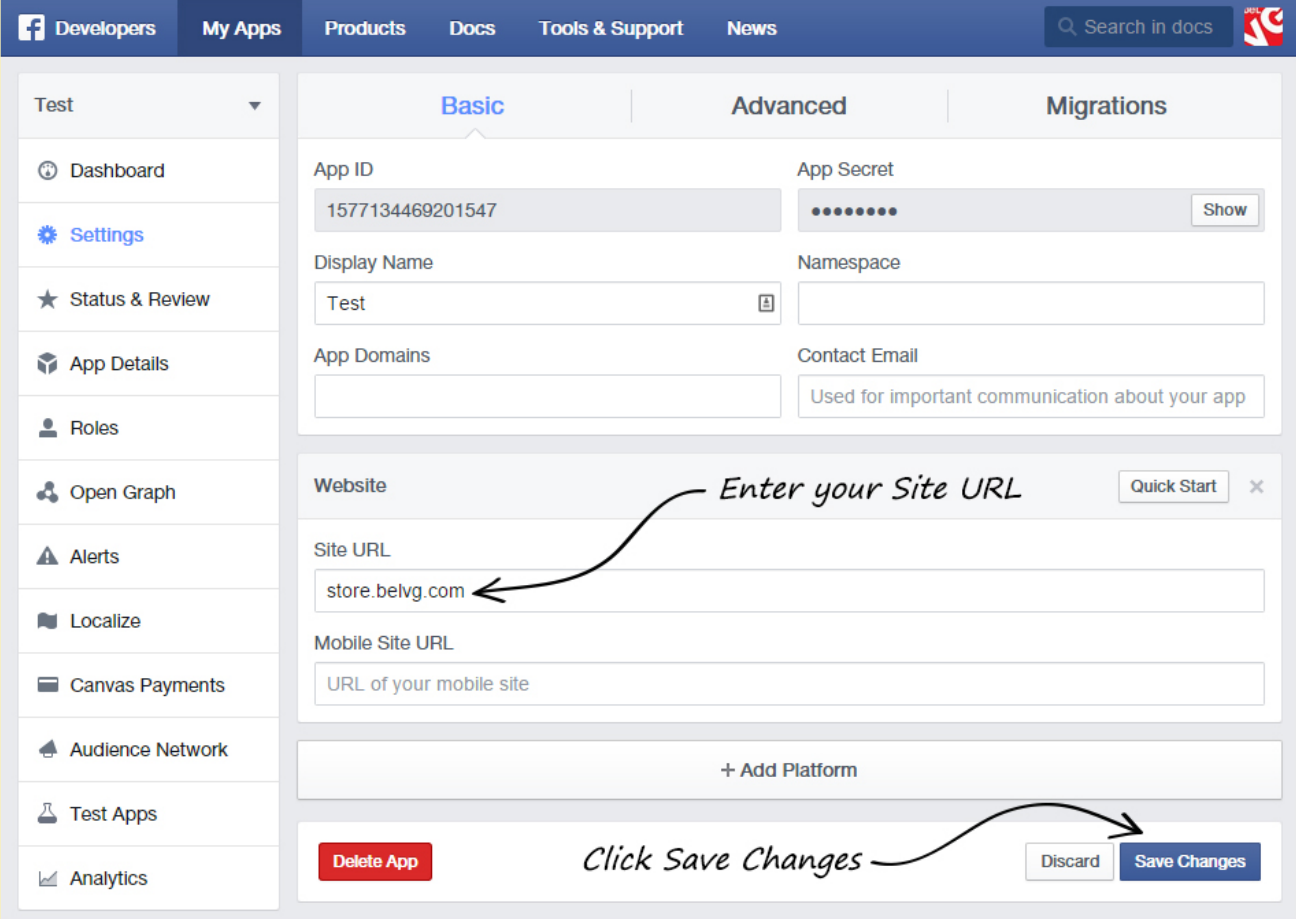

Click "Add Platform" button

Choose the **Website** in the popup window.

Choose the Website

Type the site address in the **Site URL** field. And press **Save Changes** button

The screenshot shows the Facebook Developer console interface. On the left is a navigation menu with options: Dashboard, Settings, Status & Review, App Details, Roles, Open Graph, Alerts, Localize, Canvas Payments, Audience Network, Test Apps, and Analytics. The main content area is titled 'Test' and has three tabs: 'Basic', 'Advanced', and 'Migrations'. The 'Basic' tab is active and contains several fields: 'App ID' (1577134469201547), 'App Secret' (masked with dots and a 'Show' button), 'Display Name' (Test), 'Namespace', 'App Domains', and 'Contact Email' (Used for important communication about your app). Below these is a 'Website' section with a 'Quick Start' button and a close icon. It contains three input fields: 'Site URL' (store.belvg.com), 'Mobile Site URL' (URL of your mobile site), and '+ Add Platform'. At the bottom of the settings area are three buttons: 'Delete App', 'Discard', and 'Save Changes'. Hand-drawn annotations include an arrow pointing from the text 'Enter your Site URL' to the 'Site URL' field, and another arrow pointing from the text 'Click Save Changes' to the 'Save Changes' button.

In the final step go to the **Status and Review** tab and make you app live.

The screenshot shows the Facebook Developer console interface. At the top, there is a navigation bar with tabs for 'Developers', 'My Apps', 'Products', 'Docs', 'Tools & Support', and 'News'. A search bar is located on the right side of this bar. Below the navigation bar is a sidebar menu with various options: 'Test', 'Dashboard', 'Settings', 'Status & Review' (highlighted), 'App Details', 'Roles', 'Open Graph', 'Alerts', 'Localize', 'Canvas Payments', 'Audience Network', 'Test Apps', and 'Analytics'. The main content area is divided into two tabs: 'Status' and 'Items in Review'. The 'Status' tab is active and displays a card for the app 'Test'. The card features a logo and a question: 'Do you want to make this app and all its live features available to the general public?'. There is a 'NO' button next to the question. A handwritten note in blue ink says 'Make your app live pressing this button' with an arrow pointing to the 'NO' button. Below the card is a section titled 'Submit Items for Approval' with a 'Start a Submission' button. The bottom section is titled 'Approved Items' and lists three permissions: 'email', 'public_profile', and 'user_friends', each with a brief description and a note that the permission is approved by default.

Now your Facebook App is created!

4. How to Configure

Now, go to your Magento admin panel, and we will show you how to configure the extension step by step.

To view the extension settings, go to **System -> Configuration -> Facebook All in One**.

The module has a bunch of settings which need your attention to configure:

General Settings

In this section you need to enter your Facebook **Application Id** and **Secret key** codes which Facebook has generated for your website.

You can also create and upload your original login button which will be used on your website to let customers sign into your website with their Facebook accounts.

General Settings

Settings

This module was developed by www.BelVG.com. For docs & examples refer to the BelVG [web site](#).
We have the largest selections of [extensions](#) and [themes](#) on Magento.

Enabled	<input type="text" value="Enable"/>	[STORE VIEW]
Application Id	<input type="text" value="166393420077199"/> ▲ Create your Facebook Application Id	[STORE VIEW]
Secret Key	<input type="text" value="bc2914d96a8188398affc2a42f906e08"/>	[STORE VIEW]
Login Button	<input type="button" value="Выберите файл"/> Файл не выбран <small>▲ *.jpg, *.png, *.gif</small>	[STORE VIEW]

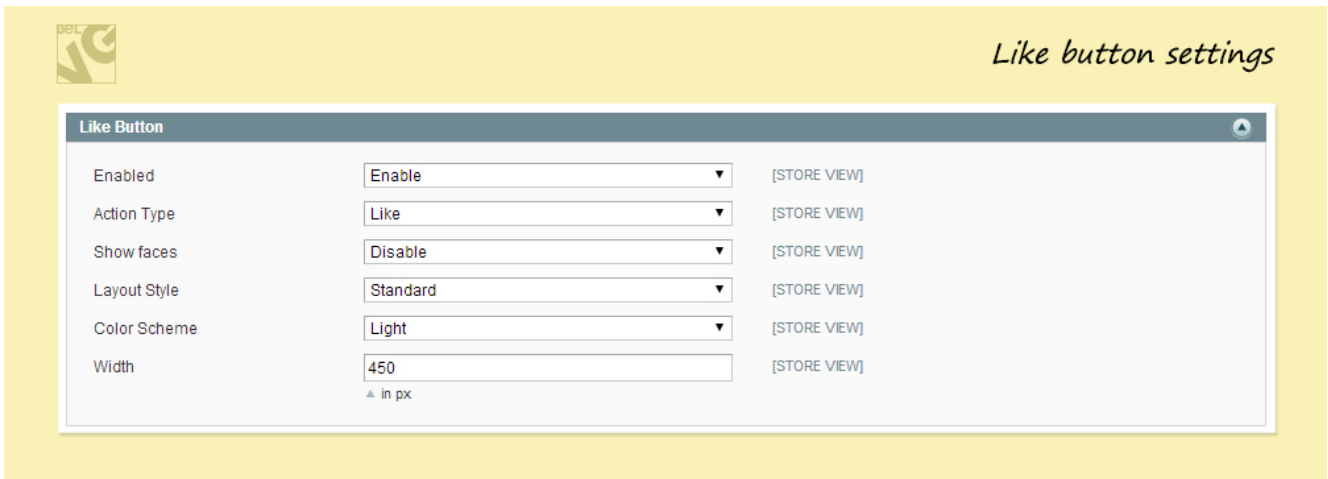

Enter your App ID and Secret Key codes

Like button

This option lets your customers like products and goods that are located in your store, so that their friends can read about them in Facebook activities stream.

- **Enabled** – select this box to activate the Like button;
- **Action type** – choose the type of action the module will perform when the **Like** button is clicked;

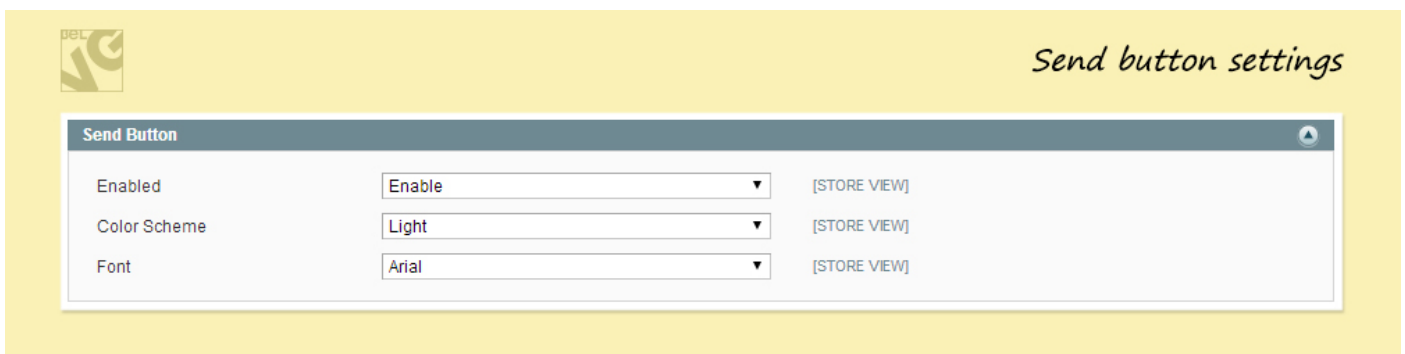

- **Show faces** – display profile pictures of the users, who like goods and products on your store;
- **Layout** – choose button style;
- **Color Scheme** – choose color scheme for the button;
- **Width** – set button width (in pixels).

Send button

This option lets users send information about products and items to their Facebook friends.

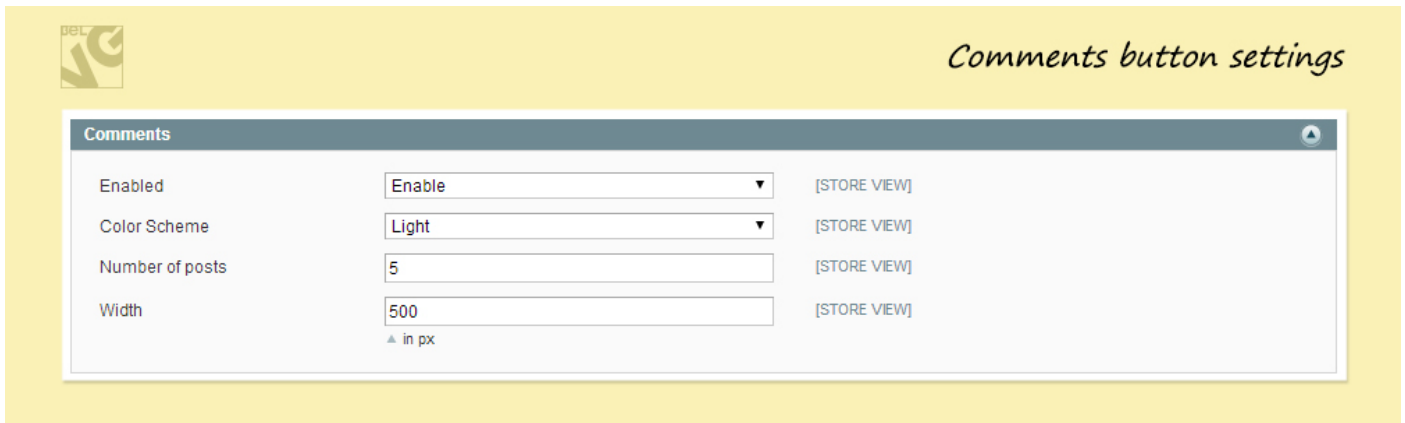

- **Enabled** – select this box to activate the button;
- **Color scheme** - choose color scheme;
- **Font** – choose button text font.

Comment button

This button allows people to leave comments to any products and goods on your website by using their Facebook accounts.

- **Enabled** – select this box to activate the button;
- **Color scheme** - choose color scheme;
- **Number of posts** – the number of posts which will be showed by default;
- **Width** – the width of the plugin.

Activity

Activity feed shows the most recent activities which have been performed by other users via Like and other Facebook buttons.

- **Enabled** – select this box to activate the button;
- **Height** – set block height (in pixels);
- **Width** – set block width (in pixels);
- **Show header** – select Yes if you wish to display the header of the Recent Activities block;
- **Color Scheme** – select the color scheme of the block;
- **Font** – choose font;
- **Add recommendations** – enable this option if you wish to add recommendations to the block;
- **Max age** – Define the maximum time period of activities being shown.

Activities block settings

Activity		
Enabled	<input type="text" value="Enable"/>	[STORE VIEW]
Width	<input type="text" value="200"/> ▲ in px	[STORE VIEW]
Height	<input type="text" value="300"/> ▲ in px	[STORE VIEW]
Show Header	<input type="text" value="Yes"/>	[STORE VIEW]
Color Scheme	<input type="text" value="Light"/>	[STORE VIEW]
Font	<input type="text" value="Arial"/>	[STORE VIEW]
Add recommendations	<input type="text" value="No"/>	[STORE VIEW]
Max Age	<input type="text" value="0"/> <small>▲ The default is 0 (we don't take age into account). Otherwise the valid values are 1-180, which specifies the number of days. For example, if you specify '7' the plugin will only show URLs which were created in the past week.</small>	[STORE VIEW]

Recommendations feed

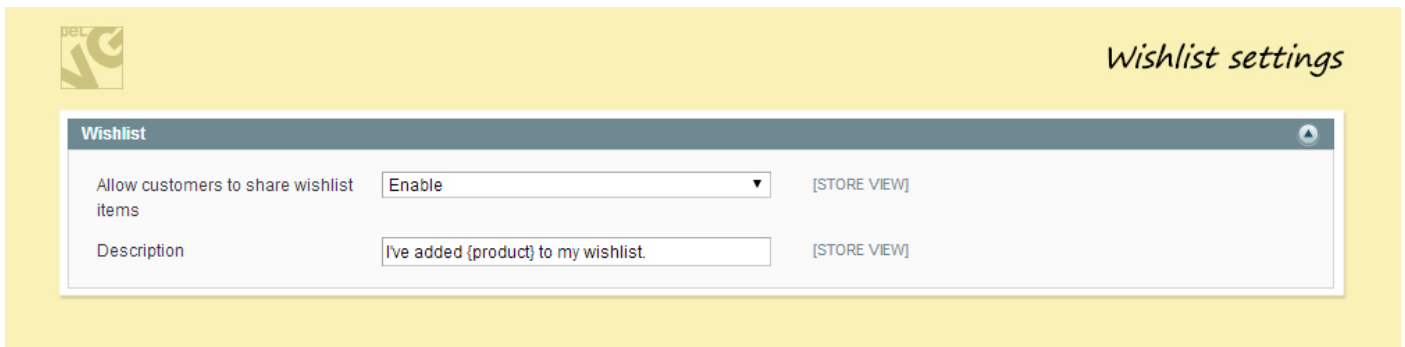

This feature shows most recommended content of your website based on users' actions, such as likes and shares etc.

- **Enabled** – select this box to activate the button;
- **Domain** – enter the domain name for which to show activity;
- **Actions to show** – specify types of actions, separated by commas, which should be displayed in the activity feed;
- **Height** – set button height (in pixels);
- **Width** – set button width (in pixels);
- **Maximum age** – limit the created time of articles that are shown in the feed;
- **Show header** - show the "Recent Activity" header above the feed. Values are "true" or "false".

Wishlist

This option lets your customers share via Facebook the items, which they have added to their wishlist.

- **Enable** -select Enable to switch on the option;
- **Description** – enter the text which will be used by default for sharing on Facebook.

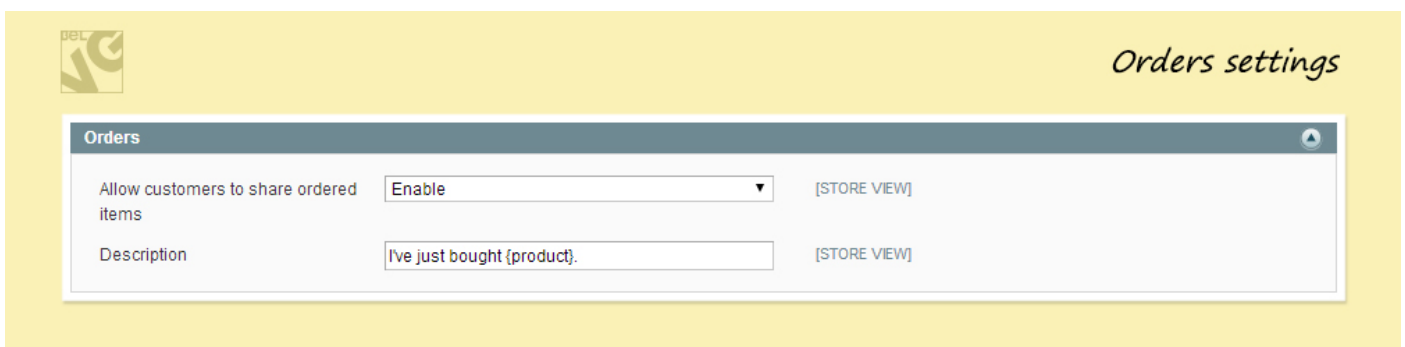

The screenshot shows the 'Wishlist settings' interface. It features a header with the BELVG logo and the title 'Wishlist settings'. Below the header is a form titled 'Wishlist' with two rows of settings. The first row is 'Allow customers to share wishlist items' with a dropdown menu set to 'Enable' and a '[STORE VIEW]' link. The second row is 'Description' with a text input field containing 'I've added {product} to my wishlist.' and a '[STORE VIEW]' link.

Orders

This option lets your customers share ordered items.

- **Enable** - select Enable to switch on this option;
- **Description** – enter the text which will be used by default for sharing on Facebook.

Once you are ready with the settings click Save and let your start enjoying all features which the **Facebook All in One** module provides for your website.

The screenshot shows the 'Orders settings' interface. It features a header with the BELVG logo and the title 'Orders settings'. Below the header is a form titled 'Orders' with two rows of settings. The first row is 'Allow customers to share ordered items' with a dropdown menu set to 'Enable' and a '[STORE VIEW]' link. The second row is 'Description' with a text input field containing 'I've just bought {product}.' and a '[STORE VIEW]' link.

5. How to Use

It's time to get acquainted with **Facebook All in One** features and the way customers may use them. We will visually review extension options and activities related to them. Eventually you will be able to see how your users' actions are mirrored on Facebook.

Customers will be able to register and log into your website right with their Facebook accounts. No additional actions or sign up registrations are required.

Sign up and Login button on the frontend

The screenshot shows a Magento storefront with the following elements:

- Header:** Magento logo, search bar, and navigation links: [My Account](#), [My Wishlist](#), [My Cart](#), [Checkout](#), [Log In](#), and a Facebook [Login](#) button. A message says "Sing up and log into the store right with your Facebook account".
- Navigation:** Furniture, Electronics, Apparel.
- Left Column:**
 - Anashria:** "Get it while they last Limited Offer 20% OFF" with an image of sandals.
 - Buy Canon REBEL:** "Starting at \$499" with an image of a camera.
 - POPULAR TAGS:** Camera, Hohoho, SEXY, Tag, Test, acer, bones, COOL, cool t-shirt, crap, good, green, his, laptop, mobile, nice, phone, RED, tight, young. [View All Tags](#)
- Center Column:**
 - It's here - Magento end of summer SALE!!** Starts September 1st. Offers: 20% OFF ELECTRONICS, 15% OFF MEN'S SHOES, 10% OFF APPLIANCES.
 - FREE SHIPPING** on orders over \$50. This offer is valid on all our store items.
 - Best Selling Products:**
